PROFILE

Ksquare Energy Pvt. Ltd. is a leading solar energy solution provider. We manufacture and source great variety of solar products which are supreme in quality and excellent in performance. With expertise in manufacturing of Solar Array Junction Box and comprehensive EPC solution we are a recognised brand across India.

With an extensive range of solar products, we manufacture Solar ACDB, DCDB, AJB, SCB, Combiner Boxes, Solar structures and diverse range distribution boxes for utility-scale projects. Our design, durability and reliability make us the first choice for installations in harsh environments and remote areas. Our name is your affirmation of plan aptitude and assembling quality.

We believe to provide a high-value solution to our customer by building a strong foundation in solar energy products & services. We aim to help customers in maximizing their ROI within the power plant life cycle.

VISION

MISSION

We aspire to achieve a sustainable economy as well as create a global development through clean energy generation. We will put forth our persistent attempt to complete consumer loyalty by offering the best service at serious costs.

Ksquare Energy is dedicated to providing world-class solar energy solutions. Our value proposition is built upon the core principle of "Serve the best". This is a common goal we share with our customers.
